

Medical Anatomy by Diagnostic Imaging

Course Syllabus

Course Number: GMS 5613

Credit Hours: Three (3) credit hours

Course Format: This online course is tailored for asynchronous distance learners.

Course Description:

The Medical Anatomy by Diagnostic Imaging will be taught using a systematic approach to visualize the organization of the major structures within the thorax, abdomen, head/neck, and back/limbs regions of the human body. Anatomical imaging will be correlated to transverse, sagittal, and coronal human sections. Medical-based scenarios will be used to promote retention and recall.

Prerequisites:

This advanced medical anatomy course will require a strong science foundation of five (5) full-semester science courses related to Biology, Chemistry, and/or Physics. Students are expected to have already taken GMS5605 Online Medical Human Anatomy.

Contacts:

If you have questions about the course or its content contact the **Course Coordinator**, Dr. Kyle E. Rarey (rarey@ufl.edu), Professor, Department of Anatomy & Cell Biology and Otolaryngology. For technical questions or concerns, contact Phi Nguyen (pnguyen8080@ufl.edu).

Schedule: The course is offered every semester, including the summer.

Time Commitment: This course will require about 90 hours of time, or about 6 hours per week, allocated between different course activities (i.e., lectures, quizzes, and overviews).

Course Goals:

The goals of this course are threefold: (1) to further enhance a foundation of the fundamental concepts and terminology of the anatomy of the human body. (2) to discuss anatomical organization into functional systems related to medical correlations; and (3) to promote critical thinking of the clinical consequences of the anatomical injuries, musculoskeletal disorders, pulmonary diseases, gastrointestinal abnormalities, and renal pathophysiology.

Learning Outcomes:

Upon completion of this online laboratory course, students will be able to:

1. demonstrate an understanding of the basic anatomical terminology as it relates to its organization to form the functional systems of the human body;
2. describe the anatomical structures of the human body relative to systems, location, and planes of the body by use of radiographic imaging;
3. demonstrate an understanding of the primary functions of the major systems of the human body;

4. develop problem solving skills to describe possible pathologic outcomes of system dysfunction;
5. demonstrate critical thinking skills to evaluate how alterations in anatomical structures and changes in system function will lead to medical conditions.

Learning Resources:

1. Unit overviews, recorded lectures with PowerPoint presentations, and other multimedia resources will be provided on the course web site.
2. Required text:
 - a. **Anatomy for Diagnostic Imaging 3rd Edition, Ryan, Stephanie, et al.** Print version + eBook available here <https://www.us.elsevierhealth.com/anatomy-for-diagnostic-imaging-9520702029714.html>
3. Required software:
 - a. **Visible Human Dissector Program, Touch of Life Technologies.**
Purchase available at <http://www.toltech.net/schools/ufl>. Price is \$79.
4. Practice on-line quizzes that consist of multiple-choice questions will be available for each module of study.
5. Clinical exercises in anatomical injuries, musculoskeletal disorders, pulmonary diseases, gastrointestinal abnormalities, and renal pathophysiology will be used to promote critical thinking.

Examinations and Grading:

One examination consisting of 50 multiple-choice questions (each valued of 2 points) will be given for each module. Each exam will be worth 100 points and will be timed. Students must take all examinations at a computer with a web camera. Exams will be secured and proctored using HonorLock. More about HonorLock: [Getting Started with HonorLock](#); [HonorLock Student Prep](#); [HonorLock Student Privacy](#)

4 module examinations = Total 400 possible points

Grading Scale

A	=	93-100%	C+	=	77-79%
A-	=	90-92%	C	=	73-76%
B+	=	87-89%	C-	=	70-72%
B	=	83-86%	D+	=	67-69%
B-	=	80-82%	D	=	63-66%
			D-	=	59-62%
			E	<	59%

I = An incomplete grade will be given if a student fails to complete the course as scheduled. For more information about UF grading policies see:

<https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>.

Make-Up Exam Policy:

Students are required to take all four modular examinations. Make-up exams are given only under special circumstances. If the student is unable to take a scheduled modular examination, the course

director must be notified before the examination. In addition, a written letter of explanation, requesting that the absence from the exam be excused, must be presented before the exam or immediately afterwards. An excused absence is allowable when: 1) the student is hospitalized and/or has been advised by a licensed medical practitioner or hospital not to attend the exam, 2) if there is a documented death of an immediate family member, or 3) the examination falls on a religious holiday. All excused absences will be considered on an individual basis by the course director. With the exception of highly extenuating circumstances, failure to follow the prescribed procedures will result in a grade of zero for that exam. Further information about the policies for attendance and religious holidays for The University of Florida can be found at:
<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.

Assignments:

The course is divided into 4 modules. Each module consists of selected chapters with specific reading assignments. For each module students will: (1) review the learning objectives and corresponding lecture notes; (2) read and complete the assignments as given; (3) complete interactive exercises associated with each module; (4) take online practice examinations; and (5) take the scheduled, online module examination.

Attendance:

Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found in the online catalog at:
<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>. A student's overall success, however, is based upon following the course schedule for learning the assigned readings and practicing the recommended exercises. Students are strongly encouraged to develop self-discipline to complete all text readings and online exercises, including the practice examinations.

Academic Integrity:

Please review the University's complete policy regarding academic dishonesty, found online in the student handbook: <https://regulations.ufl.edu/wp-content/uploads/2018/06/4.040-1.pdf>

Students are expected to abide by the University's Academic Honesty Policy, and to adhere to the following pledge:

“We, the member of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.”

On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied:

“On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

According to the UF Student Guide, Academic dishonesty includes the following.

Cheating - copying another's work for academic gain.

Plagiarism - representing another's work as your own.

Bribery - offering, giving, soliciting, or receiving goods or services of value for academic gain.

Misrepresentation - altering facts (e.g., signing an absent classmate's name to an attendance sheet).

Conspiracy - planning with others to commit academic dishonesty.

Fabrication - making up information to avoid punishment or other difficulty.

Accommodation Policy:

Students requesting classroom accommodation must first register with the Dean of Students' office, 202 Peabody Hall, 352-392-1261. The DSO will provide documentation to the student who must then provide this documentation to the instructor.

Student Support Services

As a student in a distance learning course or program you have access to the same student support services that on campus students have. For course content questions contact your instructor.

For any technical issues you encounter with your course please contact the UF computing Help Desk at 352-392-4357. For Help Desk hours visit: <http://helpdesk.ufl.edu/>.

For a list of additional student support services links and information please visit:

<http://www.distance.ufl.edu/student-services>

Special Accommodations

Students requesting disability-related academic accommodations must first register with the Disability Resource Center. <https://disability.ufl.edu/>

The Disability Resource Center will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation.

Complaints

Should you have any complaints with your experience in this course please visit

<http://www.distance.ufl.edu/student-complaints> to submit a complaint.

Online Course Evaluation Process:

Students are expected to provide feedback on the quality of instruction in this course based on 10 criteria. These evaluations are conducted online at <https://ufl.bluera.com/ufl/>. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at

<https://evaluations.ufl.edu/results>.

Campus Resources:

Health and Wellness

U Matter, We Care:

If you or a friend is in distress, please contact umatter@ufl.edu or 352 392-1575 so that a team member can reach out to the student.

Counseling and Wellness Center: <http://www.counseling.ufl.edu/cwc/Default.aspx>, 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

Sexual Assault Recovery Services (SARS)
Student Health Care Center, 392-1161.
